

Pigeons

Issue - Occupying ledges or window air-conditioning units and pooping on everything!

Suggestions –

- ▶ Install barriers made of sheet metal, wood, or other materials at a 60 degree angle so birds can't perch on it.
- ▶ Put an outstretched slinky toy or rolled-up piece of plastic netting or chicken wire over the area.
- ▶ Install soft plastic spikes on the ledge
- ▶ Tightly stretch steel wire between L-brackets installed at each end of the ledge.
