

Wolf Hollow Wildlife Rehabilitation Center ~ Education Internship

Location – Wolf Hollow Wildlife Rehabilitation Center. San Juan Island, Washington State

Duration – Summer 2025 Ideally May to Sept, but as much of that time as possible. Exact start and finish dates are flexible.

Hours - 5 days a week Tuesday-Saturday

Compensation – On-site housing and stipend provided

Role – to Assist the Education and Research Manager with a wide range of tasks involved in the Education Outreach Program at Wolf Hollow, including, but not limited to:

- Design and production of educational materials
- Care of education wildlife
- Educational Presentations
- Manning information booths at events
- Creating and leading children’s activities
- Web Site updates
- Production of educational artifacts
- Cataloging photographic materials
- Assist with research projects

Opportunities

This position provides the opportunity to

- Learn more about the wildlife of the San Juan Islands and adjacent mainland, human impacts on wildlife, and the work of a wildlife rehabilitation center.
- Gain experience and skills in different aspects of an Educational Outreach Program, including interacting with the public, preparation of educational materials, and working with children’s groups.
- Learn about the opportunities and challenges associated with working for a non-profit organization.

Qualifications

Must be 18 or over. Friendly, outgoing character.

Background in ecology, biology, environmental science or similar fields. Genuine interest in and basic knowledge of regional natural history and wildlife. Experience working with children and the public is an advantage. Must have a valid driver’s license.
